

Cut To Size (CTS) range

Description

CTS Range - Rock Mineral Wool, EPS & PIR:

CCL manufacture precision cut, mineral wool, Expanded Polystyrene (EPS) and PIR insulation boards & strips in a range of densities, thicknesses, lengths and widths.

With no minimum order quantity, less dust and damage, the CCL range of factory cut solutions save time, money and improve the speed of application on site.

CTS solutions are used used in multiple applications ranging from slab perimeter strips in ground floor build-ups, to thermal breaks in modular construction.

Rock mineral wool insulation finished sizes are manufactured to the customers specification in thickness, length, width & density using

- Density - 33kg m³ to 140 kg m³
- Thickness - 20mm to 240mm (Depending on density)

EPS & PIR finished sizes are manufactured to the customers specification, with EPS generally being EPS 70 grade and PIR with either foil or tissue facings.

Cut strips are supplied boxed, bagged, plain or palletised and are available for collection, delivery to stock or direct to site on pallets with a weather proof covering.

CCL can supply the CTS range using materials from our own stock, materials supplied on a free issue basis, or as a back to back order / reciprocal basis.

There is no minimum order quantity for the CTS range of products
